IZZY TAYLOR for Sports Officer

I’m a 1st year geographer who has a passion for all things sporty.

I currently row for Downing and run for the university but also enjoy netball, cycling, swimming and coaching sports teams.

I see sport as a fantastic opportunity to meet new people, challenge yourself and to have a productive break from the library.

I am a friendly and approachable person able to listen to ideas and drive positive change.

My vision: an inclusive, supportive and high-achieving community for all students participating in all levels of sport.

Work alongside the Freps to organise a day of sport during Fresher’s Week with a wide variety of practical sessions and workshops about mental health and diet.

Encourage students to make good use of facilities, including the gym. It would be great to have access to free-weights and there is potential to partner with Kelsey Kerridge sports centre.

Continue the weekly sports report and add in some extra features: inspirational athlete of the week, workout song and power-food recipe. I will also include upcoming matches to encourage students to spectate.

Introduce a match calendar including all sports fixtures so that students can organise their term- especially useful for students participating in multiple sports.

Build on the successful varsity day with Lincoln College and continue this tradition making it an even bigger day in the sports calendar.

Introduce classes led by students such as yoga and circuits on the paddock in the summer.
